

NEW
TECHNOLOGY

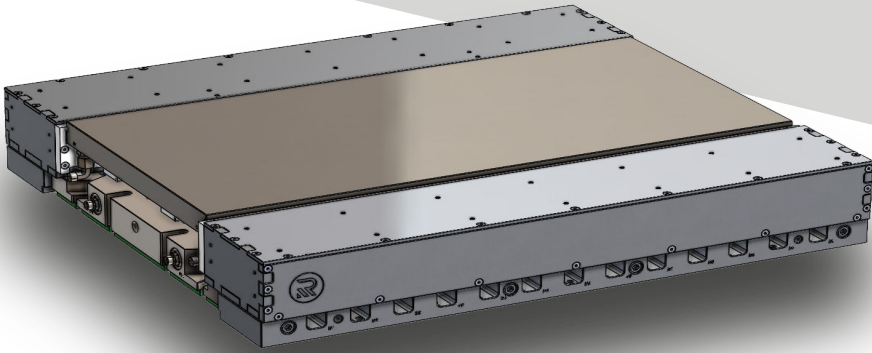

R-IDS™

ROCTOOL INDUCTION DYNAMIC SAVER

A new standard for composite processing
with guaranteed performance

1st step towards composite manufacturing
in mass production

HEATED PLATENS WITH A ROCTOOL TOUCH

Using Roctool's patent portfolio we designed versatile heat & cool platens

Roctool now offers :

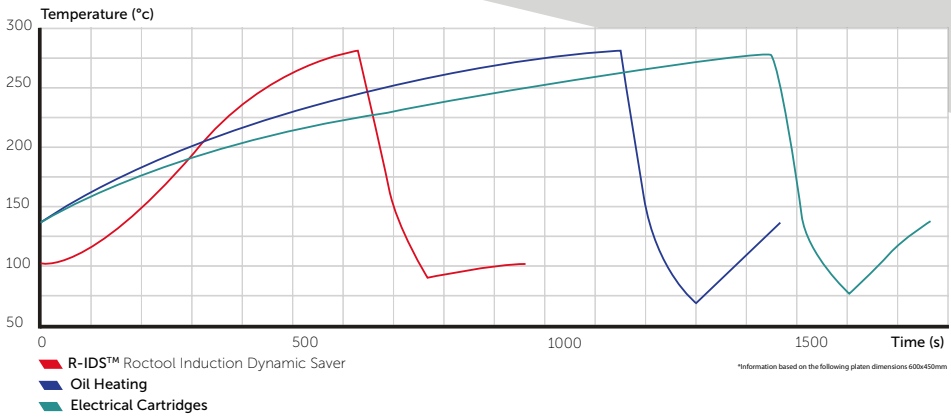

- ✘ A Dynamic temperature management thanks to induction heating
- ✘ Savings in energy consumption, cycle time
- ✘ Supporting clients from initial development steps to final manufacturing
- ✘ Quick development
- ✘ Long term investment
- ✘ Molding inserts are compatible with steel, aluminium and nickel alloy

ROCTOOL
MOLDING MATTERS.

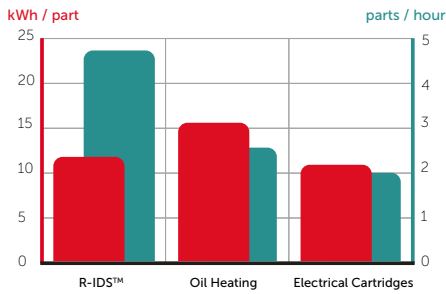

ADDED VALUE

PRODUCTIVITY COMPARISONS

Between
R-IDS™ / Oil Heating / Electrical Cartridges

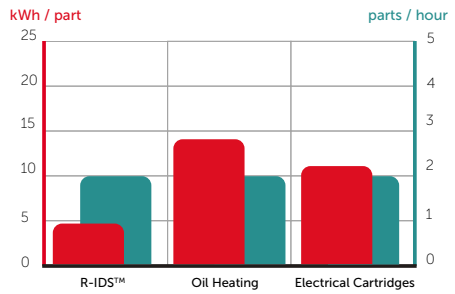

Highest productivity

Resulting cycle time

Lowest energy consumption

Same cycle time
