About Roctool: www.roctool.com

Founded in 2000 and listed on Euronext Growth, Roctool is a global expert in induction technologies for plastic and composite molding. With operations in Europe, North America, and Asia, Roctool provides complete solutions: proprietary generators, tooling, engineering services, and simulation. Its technologies cover injection, compression, and composites, with a clear value proposition: faster cycles, higher surface quality, and lower energy consumption.
